★★ RE: Football/Cheerleading/Gymnastics/Baseball Sports Team Photography ★★

We would like to thank you for considering The SportsVortex for your team photography needs. We know that this task can be time consuming and trying. That is why we have come up with a system that will help your organization and your team members put together the best team and individual photos yet!

Our photography services offer you convenience, uniformity, state of the art photography, image, and individuality based on your athletic needs. We feel that your efforts to conduct such a large undertaking should be made as simple as possible. That is why we bring you the most relaxed and enjoyable setting. Read on to see just how we make this happen!

★★ Convenience ★★

We are a mobile studio. That's right! We bring the studio to YOU! We will travel to your location and set up a full studio. What could be more convenient than that? Your team members do not have to go to a different location to conduct their photo session. This reduces complexity, stress and missed sessions.

★★ Cutting Edge ★★

Our sports photography is all taken with the latest digital cameras and equipment, to give your photographs the best presentation available. We offer "Blemish Be-gone" to remove acne and unwanted scarring using our cutting edge digital retouching. Not to mention the magic of getting large groups up close so that family members can find their athletes in the team photos. With all of the latest technology we are able to create beautiful customized templates for your team members, coaches and team shots.

★★ Choice ★★

During your team members photo session they will have up to 3 poses per athlete. One being the choice of the coach, and the remaining 2 poses will be poses that the athlete may want taken i.e.; full body shot in a position pose, then a 3/4 shot in a sitting down pose (The team member or parent may choose these poses.) Parents can choose the images of their choice for their photo package.

★★ Spirit ★★

While all of this may sound too good to be true let me add one more important item. Our photography team! Our team is one that is highly spirited and possesses excellent interpersonal skills. Allowing the over experience to be fun!

Now that you have seen what we have to offer you by choosing The SportsVortex for your next team photos.

Here is how it works.

- 1) You let us know when you would like to schedule your shoot date.
- 2) We mail you your photo packet that includes a time schedule, posters, and handouts to announce your Picture day.
- 3) The coaches schedule a time for each team member and teams for the photo session.
- 4) Notify all team members that they must come in with hair styled and a clean face.
- 5) Proofs will be viewed the same day as the photo session.
- 6) Photo selection and purchases are paid for on Picture Day.
- 7) Your organization must supply a location for viewing the proofs and power.
- 8) Photos will be shipped to your location within 14 to 18 days after your shoot date. Photos will come to you pre-packaged by team and in alphabetical order and ready to hand out.

That's it! Now what could be easier than that!

Now let's talk about what your organization will receive. We know that your organization is very proud of its team members and would love to display a wonderful team portrait. That is why we give your organization a free 8x10 portrait of each team. Last but certainly not least, your booster club can earn 5 to 10 percent of total sales based on the amount of participating members generated from the initial sales to raise money for your fundraising efforts.

Thank you for considering The SportsVortex for your sports photography needs.
